Redefining UAE's Tech Digital Future with
Smart IT and AI Solutions

Introduction

Waince Web Tech

Redefining UAE's Tech Digital Future with Smart IT and AI Solutions

Waince Web Tech FZE is a Dubai-based digital solutions company providing smart and customized IT services across the UAE. We specialize in website development, mobile apps, CRM systems, SEO, digital marketing, and UI/UX design. Our e-commerce platforms are secure and scalable, helping businesses grow in the digital world.

Along with our core brand, we also operate Imsha Real Estate CRM, Dubai Digital Hub, and DXB Clicks (Affiliate marketing), extending our expertise across different industries. From Dubai to Sharjah and Abu Dhabi, we promote brands with creativity, strategy, and innovative technology.

Our Mission

At Waince Web Tech, our mission is to provide high-quality digital solutions customized to the diversified needs of businesses in all regions. We aim to overcome the digital barriers, connect brands with their target audiences, and help them to grow easily in a global marketplace. Our commitment is to help companies of all sizes succeed through smart, scalable, and modern technology.

Our Vision

To become a leading force in shaping the digital future of the UAE and beyond by providing transformative IT and AI-driven solutions. We believe in a connected world where every business, regardless of size or industry, can access innovative technology, succeed online, and make a global impact.

TEAM LEADER

Engr.M.Naeem

Full Stack Developer/IT Manager

At Waince Web Tech FZE, our vision has always been to empower businesses with innovative digital solutions that drive growth and create long-term success. From website designing and development to SEO, digital marketing, mobile app development, and e-commerce solutions, we are dedicated to delivering excellence through creativity, technology, and strategy. Our team thrives on challenges, ensuring every project is tailored to meet the unique goals of our clients across the UAE and beyond.

As Team Leader, I take pride in leading a company that values integrity, innovation, and customer satisfaction above all. We believe in building strong partnerships with our clients, helping them enhance their digital presence and achieve measurable results. At Waince Web Tech, your success is our success, and we remain committed to being your trusted partner in the ever-evolving digital world.

Our Team Of Experts

Our strength centers on the diversified talents and expertise of our dedicated team.

Ahmad Malik

Website Designer

A creative mind with a strong eye for detail, Ahmad creates highly engaging and user-friendly websites that enhance online experiences and boost brand presence.

Ali Hassan

Web Developer

Ali specializes in building secure and responsive websites. His technical expertise ensures that every site we develop is secure, efficient, and optimized for performance.

Sara Memon

SEO Specialist

Sara brings strategic knowledge into search engine optimization, helping clients rank higher, drive organic traffic, and improve visibility through proven SEO techniques.

Hassan Jafari

Digital Marketing Manager

A results-driven marketer, Hassan is skilled in running successful campaigns on different platforms. His data-backed strategies help clients meet and exceed their marketing goals.

Our Team Of Experts

Our strength centers on the diversified talents and expertise of our dedicated team.

Fatima Al Qasimi

Graphic Designer

Fatima brings creativity to life with dynamic visuals that align with brand identity. Her graphic design expertise ensures consistency and impact across all touchpoints.

Omar Zubair

Mobile App Developer

Omar builds functional and simple mobile apps that provide users a smooth experience on multiple devices, helping businesses stay mobile-first in a digital world.

Nadia Khalil

Content Strategist

Nadia creates engaging and informative content that connects brands with their target audience. Her strategic plan for content creation helps increase brand awareness and generate quality leads.

Rashid Al Maktoum

Project Manager

Rashid ensures smooth project execution from start to finish. With a strong grip on timelines, resources, and coordination, he guarantees our projects are delivered on time and within budget.

Our Team Of Experts

Our strength centers on the diversified talents and expertise of our dedicated team.

Maya Saeed

UI/UX Designer

Maya designs simple and extremely attractive user interfaces. Her understanding of user behaviour ensures that websites and apps provide simple and enjoyable user experiences.

Zainab Rizvi

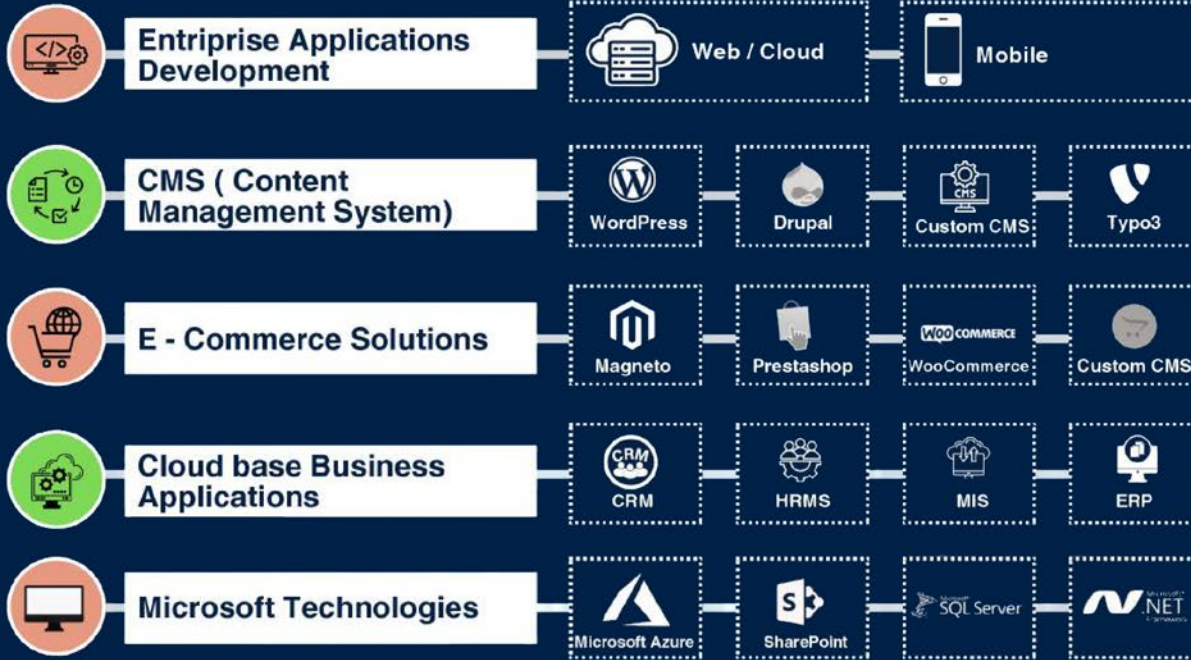

Social Media Specialist

Zainab is an expert in building and managing successful social media strategies. She helps brands engage their audiences and grow their online presence across platforms.

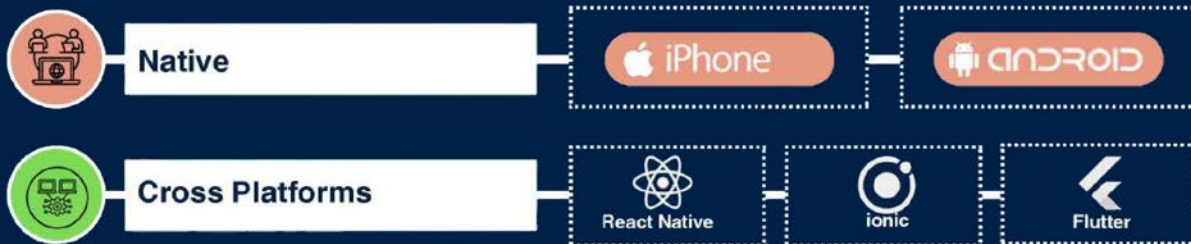

Bespoke

Web Application

Enterprise

Mobility services

Our Services

We don't just offer services; we build digital experiences that move your business forward.

Website Design and Development

We specialize in building user-friendly and responsive websites that align with your brand and engage your audience effectively.

Digital Marketing

We help your brand get seen, heard, and remembered through smart digital strategies that give you real results.

CRM Solutions

With our help, you can build stronger customer relationships with customized CRM systems that simplify communication, track interactions, and improve overall satisfaction.

Mobile App Development

Our team creates smart and user-friendly mobile apps designed to meet your audience's needs.

Our Services

We don't just offer services; we build digital experiences that move your business forward.

SEO Services

We help your business get found online by optimizing your website for search engines.

E-Commerce Solutions

We build secure and user-friendly online stores that not only display your products beautifully but also make shopping easy and trustworthy for your customers.

Software Solutions

We develop customized software applications that align with your business goals and simplify your operations.

Graphic Designing

Whether it's logos, social media creatives, or full branding kits, we design graphics that not only look great but also leave a powerful and lasting impression.

Our Services

We don't just offer services; we build digital experiences that move your business forward.

Word Press Web Development

An optimized and user-friendly website is the cornerstone of any online business.

Copywriting Services

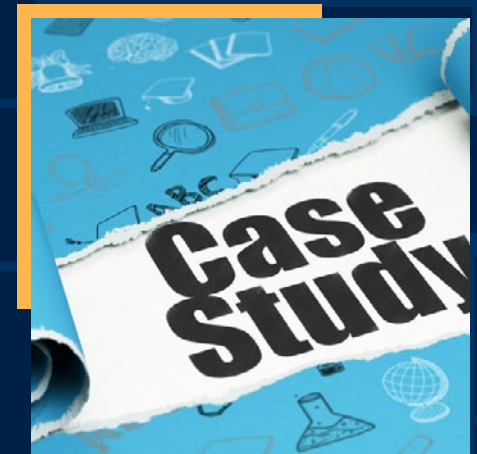

It is a skill of manipulating words to promote action. Creating engaging, persuasive content involves not just informing, but also engaging and persuading your audience.

API Development Services

We specialize in developing, designing, and integrating strong Application Programming Interfaces that improve connectivity and optimize business operations.

Case Study

The objective of a case study solution is to analyze the situation presented in the case and reach a solution or recommendation.

Other Services We Cover

Bespoke Web Application Solutions

We design and develop customized web applications tailored to your unique business requirements.

Enterprise Applications Development

We build powerful enterprise-grade applications for web/cloud and mobile devices, helping businesses optimize processes, improve productivity, and scale their business effortlessly.

CMS (Content Management System)

We create user-friendly content management systems that give you complete control over your digital content. Whether you need a custom CMS or prefer popular platforms like

- WordPress
- Drupal
- Typo3

Other Services We Cover

E-Commerce Solutions

Our e-commerce platforms are designed to boost sales, enhance UX, and simplify operations. From startups to large-scale e-commerce platforms, we provide secure solutions using:

- Magento
- PrestaShop
- WooCommerce
- Custom CMS

Cloud-Based Business Applications

We develop smart, cloud-based solutions for:

- CRM (Customer Relationship Management)
- HRMS (Human Resource Management System)
- MIS (Management Information System)
- ERP (Enterprise Resource Planning)

These systems help our businesses stay connected, organized, and informed.

Other Services We Cover

Microsoft Technologies

We use Microsoft technologies to create secure, scalable, and high-performing enterprise applications. Take advantage of our expertise in the Microsoft tech system, including:

- Microsoft Azure
- SharePoint
- SQL Server
- .NET Framework

Other Services We Cover

Enterprise Mobility Services

Our mobile app solutions are designed to enhance operational efficiency and provide a smooth user experience on any device, anytime.

Native Mobile App Development

We create secure and user-friendly native apps specifically designed for:

- iOS (iPhone)
- Android

Cross-Platform App Development

For faster development and broader reach, we provide cross-platform solutions using:

- React Native
- Ionic
- Flutter

Our Process

We follow these simple steps to deliver your projects.

Planning

Understanding your vision, project scope, and requirements.

Mockup Design

Designing wireframes and UI mockups for approval.

Client Feedback

Collaborating closely to refine ideas and align goals.

Enhancement

Fine-tuning features and visuals for optimal UX.

HTML Coding

Converting designs into responsive and functional interfaces.

Programming

Backend development and system integrations.

Testing

Quality checks to ensure a bug-free and smooth experience.

Go Live

Final deployment of your product to the live environment.

Industries We Serve

- On-Demand Delivery Solutions
- Private Social Networking
- Food & Restaurants
- Real Estate Solutions
- Education & E-Learning
- E-Commerce & Retail
- Travel & Hospitality
- Media & Entertainment
- Transport & Automotive
- Online Events, Exhibitions & Ticketing
- Healthcare & Fitness
- Banking, Financial & Debt Management

Offshore Hiring with Us

To further support our clients, we provide offshore hiring services that help businesses enhance their internal IT capabilities with ease, efficiency, and confidentiality.

Benefits of Offshore Staffing with Us:

Understanding your vision, project scope, and requirements.

- Access to outstanding global talent
- Flexibility in every project's scope and timelines
- Reduced operational costs without compromising quality
- Well-placed infrastructure for smooth remote collaboration
- Regular reporting and transparent communication
- 100% confidential, secure, and private support

Business Models

We understand that every business has unique needs. That's why we provide flexible business engagement models designed to give our clients maximum control, efficiency, and value.

Contract or Full-Time Engagement

We provide both long-term and short-term contractual staffing solutions. This model allows you to onboard skilled professionals based on your specific project or operational needs. It also gives you the flexibility to scale up or adjust your team whenever required, ensuring satisfaction before commitment.

Project-Based Pricing

Ideal for businesses with a clearly defined scope and timeline. Once your offshore staff is selected, we schedule an in-depth orientation to align on budget planning, deliverables, and infrastructure setup. This model ensures your cost control and predictable outcomes for single or multi-phase projects.

Dedicated Offshore Staffing

This model provides you access to skilled offshore professionals who work exclusively for your team. It's a cost-effective method to expand your in-house capabilities without compromising on quality. With secure infrastructure, encrypted communications, and virtual private networks, our offshore staff works easily under your systems and supervision. Understanding your vision, project scope, and requirements.

Partnership Program

At Waince Web Tech, we believe in growing together. Our Partnership Program is designed to encourage strategic collaborations that benefit both parties. We offer three key partnership models:

Business Partner

We provide team business solutions for your projects with dedicated professionals who have good communication skills to ensure smooth coordination. As a business partner, you can monitor your project progress in real time, making it a reliable extension of your core operations.

Sales Partner

Under our sales partnership program, you can promote and sell services under our brand. This gives you access to our portfolios, testimonials, and resources to build client credibility and close deals more effectively.

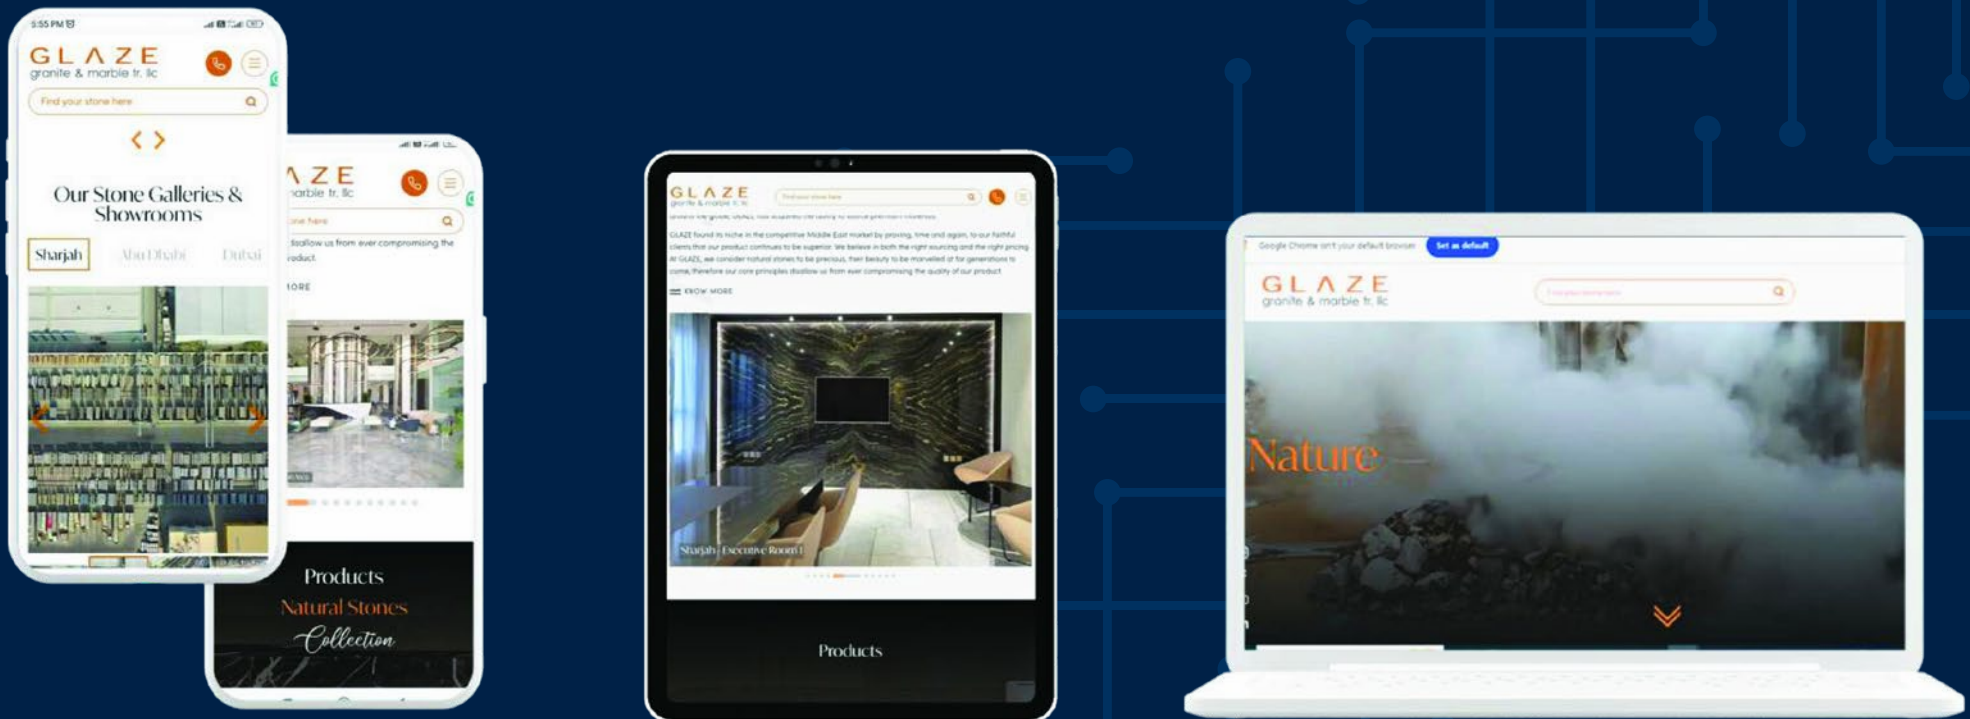

Referral Partner

Perfect for professionals or businesses with strong networks, our referral program allows you to refer clients to us, even if you're not from the IT industry. Just provide us with the client, and we'll handle the rest while you earn rewards for each successful referral.

Our Completed Projects of Website Development

Glaze Granite & Marble

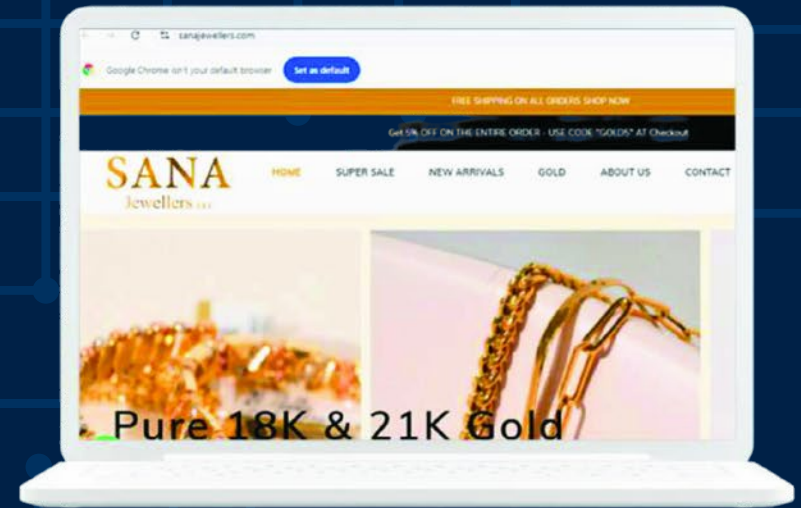

This website now serves as a strong digital storefront, helping the brand improve its online presence and connect with customers more effectively.

Our Completed Projects of Website Development
